

FAMILY WORK IN DAY CARE

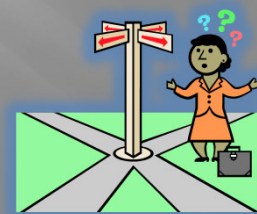

Objectives and principles of the project:

- ❖ To support family welfare, life management, and parenthood at an early stage, reducing the need for intervention by child welfare authorities
- ❖ To provide families with a natural meeting place in day care, introducing them to target-oriented family work and peer support
- ❖ To strengthen the early support skills and expertise of day care personnel with respect to, e.g., recognition and addressing of risks and support of families
- ❖ To strengthen the professional skills and expertise of early support teams in day care family work

Operating principles:

- ❖ From co-operation to doing things together
- ❖ Introduction of good practices in client work and evaluation of their effects together
- ❖ Creation of a partnership management model to support learning in multi-professional co-operation
- ❖ Linking of the project with the structures of regional multi-professional co-operation
